KEVIN.MURPHY SMOOTHING.BRUSH

The KEVIN.MURPHY SMOOTHING.BRUSH has been carefully selected from a handcrafted round brush collection designed by a small Spanish company located on the north-eastern coast of Spain.

With over 40 years in the industry, this Spanish brand is a genuine favourite of stylists and therefore his hair was perfect in delivering professional stylists with a top quality brush.

The brush handle is manufactured in real Mahogany hardwood, directly imported from non-deforestation woods in Central Africa. The type of wood is especially appreciated because it is very strong and light in weight, making it the perfect brush handle destined for professional use.

The oval cushion pad is made using two different rubber sheets, making it the best fit for the bristles and providing a high resistance to water and heat. The bristles are made from pure natural wild boar to ensure that there is no damage to the hair structure.

Top raw materials, a handmade finishing process and continuous quality control will make the SMOOTHING.BRUSH preferred by professional stylists around the world for best results use on dry hair for styling.
